

PROMOTEXT

Dumb Bats are a four-piece punk rock band from Stuttgart, Germany. After self-releasing their debut EP in 2021, the band has been sharpening their sound on the road across Germany. Later releases include two other singles and a contribution to the 2023 Turbonegro tribute album “Turbonegro must be destroyed!”.

With influences ranging from scandi bands like Turbonegro, The Hellcopters and Gluecifer to Iron Maiden and The Runaways; Dumb Bats bring energy and volume to every stage they play. Dumb Bats latest release “Ride Free” was put together over long rides in the tour van and brings together the band members’ love of fast punkrock, dirty rock n roll, blazing guitar solos, a punchy rhythm section, led by a powerful frontwoman that keeps the audience on their toes. Some touring highlights of Dumb Bats include gigs in Nancy, France; Berlin, Cologne and Nuremberg, Germany with numerous club gigs and festival appearances.

They will be returning to Hamburg the second time to play the FC St Pauli Fanshop and traveling to Slovenia for Punk Rock Holiday in 2024.
